

## PRESS RELEASE

### **Safe Bag is awarded the tender and renews the contract for the supply of integrated security and tracing services at Lyon airport for four years**

Safe Bag SpA, one of the global companies of reference for luggage security and tracing services for airport passengers, would like to announce that it has renewed its integrated offer of solutions (luggage wrapping, traceability through Safe Bag 24 and the sale of travel goods) at Lyon airport for an additional four years.

The Lyon airport, where Safe Bag has been operational since 2009, is one of the most important airports in southern France with circa 9 million passengers in 2015.

"France, representing about 30% of sales of the group, is our second largest market," notes **Alessandro Notari, CEO of Safe Bag**. Following the renewals of Paris, Nice and Marseilles, Lyon's contractual extension confirms that our offer and our services are highly appreciated in France. "

"The renewal of existing licenses - notes **Rudolph Gentile, Chairman of Safe Bag** - is the basis for building a new set of services which - after a long preparatory period - are ready to be launched in 2017. We hope, in the years to come - continues Mr. Gentile - that these services not only lead to an increase in the average value of sales receipts but also and above all to the increasing satisfaction and loyalty of our customers "
